H. WTE SILVER QUESTION

Hugh McCulloch exsecretary of the gain mutrol of the administration there might treasury read at the annual meeting of the Na- 1 : delays and difficulties in the way but they tional Bankers Association at Saratoga this would to only temporary. It is almost as cer weak the danger of a transition from a gold to tain as any human probability can be, that the a silver basis is clearly pointed int. He thinks lays of the spoils system are already numbered that while congress acted wisely to making silface of the action of European nations. By do herse" of silver which the notice of these is all it is and realist interest of notices of an object. The democratic press and it is all it is an interest of notices of these is all it is an interest of notices of an object. nations has depreciated. As soon as t was The New York World and Boston For ted that Enrope would not lose the Uni ed States in their (first to restore sliver to Aroth Blaine to concentrate their fire on Butier its former comparative value with gold the while the New York Times burt apparently co nage of stiver should have been stopped By wo are not devotes the Coarsest agricles to der undiation of in weasing to any considerable extent the amount In demand Instead of increasing the circular medium we are doing what must separately produce some contraction. Unless our policy is changed the government will are long, be compelled to pay a part, if no, the whole, of the interest on its bonds and of the whole, of the interest on its bonds and of the principal at maturity in a liver d liars. When the maint is packed sold will no longer be a clearly meaning the circular way from the candilate of punity. principal at materity in a liver a mass or made this point is reached gold will no longer be a menulating medium in the United States. It will be virtually demonstrated and become an achiele of merchandism. It will be locked up by the banks, hoarded by the people or sent abroad. This will be contractions of the sorre est and worst possible nature the effects of which upon the national great and upon all our sentially of the matter and the training and the section of the sorre the massing a dismellentian to you coopering to the whole are not produced to the section of the will be the section of the whole are the massing a dismellentian to you coopering to the whole are the massing a dismellentian to you coopering to the walless of the bester element to wit the manifold enterprises will be to the last degree Phanases Consistency would seem to rejuite

damaging
The gold balance is already rapidly diminshing. Since January last it has decreased \$10 cases on and at the mid of July there was not. 000 000, and at the end of July there was only chasetts ogre is taking them to himself \$.18 000,000 of gold remaining in the treasury that was not covered by outs coding certific to the property of the treasury and the treasury that was not covered by outs coding certific to the property of the treasury and the treasury that the treasury the treasury that the treasury that the treasury that the treasur cates. The secretary of the treasury is required by law to keep \$100 edo 000 in gold in reserve for redemption purposes, and if the drain con two vides from Cleveland to one from Blaine, rapidly to many states especially in New York tinues at the recent rate that limit will have been reached in less than three months. In the Oniseland a vote from Lockport that the Butler meantime the accumulation of light weight dolthe space on, and as the pile of gold grows smaller the mountain of silver in creases at an amazing rate. When the democratic forces, from Alexany that, the stem pede to Butler has created consternation among silver dollar becomes the people's d liar its parchasing power will decrease as the promium air advocamented to Butler, and so on Misand American securities will be weahened dollars of these securities now in the hands of foreign holders will be thrown back on our

thinks the bankers qualit at least to sound the alarm. This change might have been averted if congress had repeated the silver coinage not during I a late eceston but that body chose to e those vant of the few silver kings to ther than S area this year exhibit the named value ion but the acreant of the many people. The change the average of them makes the total about 480.

Threatans the people as all such changes do considered which is slightly blow that of the many large search of the many people as all such changes do considered which is slightly blow that of the many large search of the many large search of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all such changes do considered which is slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow that of the many people as all slightly blow th more than the money kings and unless some thing is done to avert it, the millions will be a track of the millions will be a tracked by their oreal and most within 900 to chall to forcing markets. In an t short time with depreciated dellars that will appropriate Europe preduces about 1 100 000

It is not generally known that the invention reports indicate that the far peen production of the telephone by Professor Grahou B H was indicate that the far peen production of the telephone by Professor Grahou B H was indicated an average by 75 000 000 1 100 accidental. Interesting Tests Made by the Government Chemist.

Dr Ldward G Love the present Analytical Chemist for the Government, has ecently made some very interesting experiments as to the comparative value of ing powders. Dr Love's tests were made to determine what brands are the st economical to use, and as their capacity lies in their leavening power, tests were directed solely to ascertain the available gas of each powder. Dr Love's re-Strength Cubic Inches Gas

per each onnie of Powde 127 4 Royal ' (absolutely pure) "Patapsyo" (alum powder) "Rumford's (phosphate) fresh "Rumford s' (phosphate) old "Hanford's None Such, fresn "Hanford s None Such old "Redbead's" "Charm" (alum powder) "Amazozi" (alum powder) "Cleaveland's" (short weight 3, oz) 106 8 "Dr Price a 101 🕏 "Snow Flake (Groft s, St Paul) "Tewns" Condensed "Congress yeast "C E Andrews & Co 's (contains alum)

*In his report the Government Chemist says

'I regard all alum powders as very unwholesome Phosphate and Tartaric Acid powders liberate their gas too freely in process of baking, or under varying
